DAGONG EUROPE CREDIT RATING

## Guan Jianzhong

Chairman

Guan Jianzhong is Chairman and President of Dagong Global Credit Rating, and Chairman of Dagong Europe Credit Rating.

As Chairman and President of Dagong Global since 1998, Guan has been dedicated to the development of the Chinese credit rating market and credit rating analytic technologies. He promoted Dagong's technical cooperation with an international credit rating agency, developed the first Chinese credit rating methodology and established the first credit rating post-doctoral research station in China. In conjunction with Tianjin University of Finance and Economics, he established the first credit rating and risk management college: Dagong Credit Management School.

Previously, Guan worked in the planning commission of Shanxi province and China National Aero-tech Import & Export Corporation (CATIC). He was also the founder and General Manager of CATIC Investment Corporation and CATIC US Financial Corporation. He has been involved in the development of the Asian Bond Market Initiative. As an adjunct to his efforts, Guan established institutional cooperation with Japanese and Korean domestic credit rating agencies, including the China-Japan-Korea Credit Rating Forums successfully held in Beijing and Tokyo. He has developed the Dagong Credit Rating Methodology: the first rating methodology focused on intellectual property rights incorporating international standards and adapting the methodology to conditions in China, as well as proposing a plan for the Chinese credit system and a manual for the establishment of that system.

Guan is a graduate from Shanxi Finance and Economics Institute and is a China Certified Public Accountant. He specialises in the analysis of capital markets and both domestic and international credit systems. He is the co-author of several academic books including *Credit Analysis on Hot Industries Under the Current Economic Situation*, and *Sovereignty Credit Risk Analysis in Global Financial Crisis*. In addition, he has published a series of research papers including, *A Review of Chinese Credit Risk Analysis Industry*, *The Rise of China Requires Powerful Domestic Credit Rating Agencies*, and *Build a New International Credit Rating System*.
